

PRESIDENT NEEDHAM OUTLINES POLICY AT COMMENCEMENT

(Continued from First Page.)

The place of footlights, and thousands of blossoms were banked several feet high over the orchestra pit. Festoons of blue and white, with buff and blue banners, were strung about the boxes, and into them were looped scores of huge bouquets.

At 10:30, the graduates, 146, marched into the theater, double file, and took their places. Prayer by the Rev. Robert M. Moore followed, and, following music by the orchestra, James William Berry, who later received a degree of B. A., delivered an oration on "Benedict Arnold." His speech was followed with close attention, for the reason that he showed the good points in the life of the man whose name is usually synonymous with "traitor."

Mastery of Mind.

"Mastery of Mind" was the topic upon which Raphael Henry Blakesley spoke, taking the ground that a man shapes his own career, and that he is not the product of his environment.

More music followed, then came President Needham's address. Following this, the deans of the schools presented their candidates for degrees to President Needham and received their diplomas.

Tonight at Rauscher's the members of the faculty of George Washington University will be hosts at the annual reception to the graduating classes of the university.

This is one of the events of the George Washington University commencement week to which the members of the student body look forward eagerly and is always the occasion of much enthusiasm.

There will be music and dancing. The reception will begin at 9 o'clock.

EGYPT CONSTITUTION ADVISED BY SULTAN

Mehmed Talks to Khedive Despite the Wishes of Great Britain.

CONSTANTINOPLE, June 9.—Despite pressure to the contrary, brought by the English foreign office, Sultan Mehmed V has advised the Khedive to grant Egypt a modern constitution and general enfranchisement.

England opposes such an enlargement of liberties in Egypt, preferring the present system of controlling the country through a Khedive nominally absolute, but in reality under the domination of England.

Several days ago the Khedive sent his personal representative of Constantinople to confer with the Young Turks leaders, whose constitutional victory had inspired the younger element of Egypt.

WAR OF RELIGIONS IS ON IN SCOTLAND

Catholics and Protestants Clash at Meeting and Police Are Called to Restore Order.

GLASGOW, June 9.—Trouble that has been brewing between the Catholics and Protestants of Larkshire is at fever heat today as a result of last night's riotous clash in the town of Motherwell, twelve miles southeast of here.

It is not clear yet just what started the latest trouble, but a large open air Protestant meeting was suddenly converted into an anti-Catholic demonstration. The Catholics barricaded themselves in their homes, but the Protestants, with a big numerical advantage, broke into many of the houses and assaulted the occupants.

Twenty of the rioters were dangerously injured and a hundred or more slightly hurt before being dispersed by the police.

The trouble started when traveling Protestant evangelists began working in D's county, in which they bitterly attacked Catholics and Catholicism, greatly enraging the Catholics.

ITALY IS CUT OUT OF CZAR'S ITINERARY

Secret Service Agents Report Too Bitter Feeling There Against Him.

ST. PETERSBURG, June 9.—There is the best authority today for the statement that the Czar has abandoned his plan to include Italy in the itinerary of his forthcoming European tour through fear of assassination.

Russian secret service agents, who were sent to Italy two weeks ago to prepare the way for the Czar have reported that Italian revolutionists have combined with Russian exiles in Italy in a plot to assassinate Nicholas and that the trip cannot be taken without the gravest dangers.

The feeling against Nicholas is particularly bitter now, his agents tell him, on account of the recent reactionary triumphs in Russia, and the revelations of frightful prison cruelties, resulting from the douma's debates.

FAREWELL DINNER TO DR. PHILLIPS

G. W. U. Medical Graduating Class Gives Banquet at Rauscher's.

The members of the graduating class of the school of medicine, George Washington University, bade an affectionate farewell to Dr. W. F. R. Phillips, who retires as dean of the faculty of medicine at the end of this scholastic year.

The farewell took the form of a banquet, which was not only attended by all the members of the class, but by many distinguished graduates and by the president and members of the faculty of the university. The dinner was given at Rauscher's last evening, and the diners were at the tables from 8 o'clock until long after midnight. Dr. Phillips presided. There were but two formal toasts, "The University" and "The Class." President Charles W. Needham responded to the first toast, and Dr. W. F. McLaughlin for the class. There were a number of informal talks, however.

Six Cents Per Quart For Pure Milk

That means the richest Holstein milk, with all the butter fat, all the solids. It means milk without germs in it—pure, clean and wholesome. And it means a cow in your kitchen. That's what you get in Van Camp's.

If you knew Van Camp's Milk, as others know it, you would not go a day without it. Let the milk itself convince you.

See what it means to have rich milk and cream always on hand when you want it. See the waste you save.

Learn how it feels to know that your milk has no germs in it.

Compare a dish made with whole, rich milk with a dish made with milkman's milk. See if we tell the truth.

Think what a find this milk will be if it proves to be what we say.

A Germless Milk

Van Camp's is a germless milk. Every cow is inspected—so are the men who milk them. No tubercular cows, no diseased milkmen, convey their infections to Van Camp's Milk.

Our dairies are sanitary. Our creameries, where the milk is evaporated, are built without wood. We make a business of cleanliness.
